Clock Makers for over a Century

PRESENT PLANT OF THE E. INGRAHAM COMPANY

A Bit of History

The E. INGRAHAM COMPANY was founded by Elias Ingraham, who, after serving his apprenticeship as a cabinet maker in Marlborough, Connecticut, came to Bristol in 1824 and started in the clock business by making clock cases under contract for Lawson and Chauncey Ives and later for others.

In 1835 Elias Ingraham bought a shop, with water privileges, and commenced making clocks on his own account. He continued making clocks until 1843, when he formed a partnership with Elisha C. Brewster and his brother, Andrew Ingraham, under the name of Brewster & Ingrahams. This firm was succeeded in 1848 by E. & A. Ingraham, who continued business until 1855, when their plant was entirely destroyed by fire. It is interesting to note that at this

time they had New York connections with Edmund Clarence Stedman, the banker poet, under the name of Ingrahams & Stedman.

Two years later, Elias Ingraham rented a shop, and in 1859 formed a co-partnership with Edward Ingraham, his son, which was continued until 1881, in which year a joint stock company was formed under the name of The E. Ingraham & Company, which was later changed to The E. Ingraham Company.

Elias Ingraham, the founder of this business, was born in Marlborough in 1805, and died in Bristol in 1885. Being a cabinet maker by trade, he naturally went into the clock business on coming to Bristol, for even as early as 1824, Bristol was known as a clock making center. Later, in 1855, there were about sixty independent clock producers, this concern being the only direct survivor. There were also numerous small manufacturers making clock parts, none of which now survive.

Elias Ingraham was a man of many superior qualities, and also of an inventive turn of mind. Seeking a wider market for his clocks, he went to Caracas, Venezuela, by sail, and on the long return voyage whittled out of a block of mahogany, with his jack-knife, the design for a clock case which was the original "Sharp Gothic," destined to play so large a part in the history of Yankee clocks.

Plant about 1875

(Continued on page eleven, last leaf in booklet)

Ingraham Alarm Clocks fitted with famous stem shut-off.

Prices subject to change without notice

INDIAN

Height, 6 inches. Nickel and Polished. Polished brass mat. Bell inside of case. Stem shut-off.

Oak or mahogany finish.
Dial 10 inches. Height, 38¼ inches.
Time List \$14.62
Strike List \$16.70

ELIAS INGRAHAM
Founder and President 1824-1885

EDWARD INGRAHAM
President 1885-1892

(Continued from page two)

On his return to Bristol, he put this clock on the market and it became a quick seller. As he did not protect his design by patent, it was extensively copied, and it is believed to have been the best seller of any distinctly American design for clocks. This original design was by far the best in point of design of any of the Sharp Gothic clocks. It may also be stated that many popular designs for clock cases in use in the United States prior to 1875 were designed by Elias Ingraham.

Edward Ingraham, son and partner of Elias Ingraham, conceived and originated the manufacture of the Black Enameled Wood Case, which for many years was the standard finish for high grade mantel clocks.

Since the day of Elias Ingraham, this Company has always been at the front in respect

to the excellence of their designs and in their manufacturing facilities and methods. About 1898 this firm began the manufacture of standard alarm clocks; in 1913 the manufacture of low priced watches; and in 1915 of eight-day alarm clocks.

The entire plant today is equipped with the most modern machinery obtainable, and a large force of skilled American workmen is employed. The Company now produces and sells millions of clocks and watches yearly. The growth and success of The E. Ingraham Company is due to a policy of standardized quantity production, with consequent economies in manufacture; an efficient, consistent sales policy whereby its products are distributed at a minimum cost; and last but not least, an exceptionally low overhead.

Guarantee

~ INGRAHAM WATCHES AND CLOCKS ~
ARE THOROUGHLY TESTED AND CAREFULLY INSPECTED
AND WE GUARANTEE THAT THEY WILL RUN AND KEEP GOOD TIME FOR
AT LEAST ONE YEAR, IF NOT SUBJECTED TO MISUSE OR ABUSE. ANY
